## Result of examination:

The fourteen segments of magnetic tape comprising specimen Q20 were connected together with nonmagnetic leader tape and placed on a 5-inch tape reel. Edit tabs were placed on the tape backing for support where the tape was torn.

Aural examination of specimen Q20 revealed only commercially recorded music, and therefore no copies or transcriptions were prepared.

## INFORMATIVE NOTE

Date 2/20/81

Re: ATKID

By attached teletype, Atlanta advises that [REDACTED] underwent hypnotic interview on 2/18/81. [REDACTED] advised that he was kidnaped at 4:45 pm, 2/11/81, by a lone Black male driving a green 1973 Chevrolet Nova.

Unsub was wearing a security guard or police type uniform, which included badge and holster but no gun. Unsub warned [REDACTED] not to say anything or he would kill him and took [REDACTED] wallet and threw it in the backseat of the car.

After approximately one hour, [REDACTED] punched unsub and jumped from car while stopped at a traffic light. As [REDACTED] ran from the car, he stumbled and from this vantage point was able to observe the license plate on the car which bore the word [REDACTED]

Crouch reported the incident to the Atlanta Police Department who did not believe him and thereafter provided the information to the Atlanta Division. [REDACTED] was afforded a polygraph examination which indicated no deception.

Unsub is described as a Black male, 30-35 years of age, 6' - 6'2" in height, and weighing 180-200 pounds.

Investigation currently underway in Georgia as well as Rhode Island with regards to license tag issued with the word [REDACTED]

Investigation, searches have been conducted of selected areas throughout Atlanta for the remains of three of the children who have yet to be found. On one such search, the above-listed items were located. Atlanta does not know if these items are connected with instant case. Notwithstanding, this office is requesting the following investigation be conducted.

REQUEST OF THE FBI LABORATORY

LATENT FINGERPRINT SECTION:

Conduct latent fingerprint examinations of mattock, shovel and plastic bag for latent fingerprints of value. If any are obtained, it is requested that they be checked against latent fingerprints developed on Penthouse and Gallery magazines previously submitted in this matter. Also, if any fingerprints are developed in above-submitted items, it is requested that they be compared with the fingerprints of suspects previously submitted.

It is further requested of the FBI Laboratory to determine, through chemical analysis, what the yellow substance is in the brown, plastic bag.

## INFORMATIVE NOTE

Date 2/13/81

Re: ATKID

By attached teletype, Atlanta advises that on 2/13/81 at approximately 1 pm an FBI search team located skeletal remains in the vicinity where other victims of the ATKID case have previously been located. Fulton County Medical Examiner has advised that the remains appear to be that of a young child; however, no positive identification has been made.

At approximately 1:55 pm on the same date, the body of a young black male was discovered in a ditch in DeKalb County, Georgia. This body was tentatively identified as that of Patrick Baltazar who was last seen alive 2/6/81. The DeKalb County Medical Examiner advised that the victim died of ligature strangulation and had been dead for a period of more than 72 hours.

Investigation continuing.

Re: ATKID; MAJOR CASE NO. 30;  
OO: ATLANTA

Attached teletype from Atlanta Office concerns Atkid, Major Case No. 30, and is a summary of investigation conducted regarding the owner of [REDACTED] prestige license tag.

The Las Vegas Division located the individual to whom the Georgia [REDACTED] license tag was issued and determined that her husband threw it away sometime last Fall. Two other similar name plates were issued in Nevada but both individuals to whom plates issued washed out as subjects in this case.

The State of Rhode Island issued one [REDACTED] tag but investigation by Boston Office proved to be negative regarding possible involvement of owner.

No other [REDACTED] or similar name plates were issued in Georgia. Atlanta Office is currently reviewing a list of 45,000 Chevrolet Nova automobiles in an effort to identify the car used to kidnap [REDACTED]

The State of Kentucky has issued one [REDACTED] plate and Louisville Office is conducting the appropriate investigation to locate the person to whom the tag was issued.

A computerized query was made of all state DMVs regarding the [REDACTED] license plate. Thirteen states have issued [REDACTED] tags and leads have been set forth for appropriate investigation.

RE: *(C)* ATKID  
MAJOR CASE # 30  
KIDNAPPING  
OO: ATLANTA

The Scientific Analysis Section has completed all analyses on items submitted to date in captioned matter. The specimens received were found as a result of a crime scene search conducted by Bureau Agents southwest of Atlanta, Georgia, on 1/10/81. They include remains of shot shells, pieces of a recording tape, pieces of cloth, loose pages of a Penthouse magazine and a cigarette butt.

Analysis has determined the shot shells to be probably in excess of 20 years old. No blood or semen was found on any of the specimens. The recording tape was determined to be the remains of a commercially produced recording of "pop" music.

The Latent Fingerprint Section of the Identification Division is processing all items for fingerprints of value.

Contact has been maintained on an "as needed" basis with Atlanta Division regarding Lab examiners assistance "on-scene," and in an advisory capacity.

investigation, searches have been conducted of selected areas throughout Atlanta for the remains of three of the children who have yet to be found. On one such search, the above-listed items were located. Atlanta does not know if these items are connected with instant case. Notwithstanding, this office is requesting the following investigation be conducted.

REQUEST OF THE FBI LABORATORY

LATENT FINGERPRINT SECTION:

Conduct latent fingerprint examinations of mattock, shovel and plastic bag for latent fingerprints of value. If any are obtained, it is requested that they be checked against latent fingerprints developed on Penthouse and Gallery magazines previously submitted in this matter. Also, if any fingerprints are developed in above-submitted items, it is requested that they be compared with the fingerprints of suspects previously submitted.

It is further requested of the FBI Laboratory to determine, through chemical analysis, what the yellow substance is in the brown, plastic bag.

IT IS NOW BELIEVED THAT ONE PERSON IS RESPONSIBLE FOR THE MAJORITY OF THESE KILLINGS. CONSEQUENTLY THE THRUST OF ATLANTA'S INVESTIGATIVE EFFORT NOW IS TOWARD IDENTIFYING SINGLE SUBJECT.

TOWARD THIS END, ATLANTA HAS OBTAINED FROM THE GEORGIA DEPARTMENT OF OFFENDER REHABILITATION A COMPUTERIZED LIST OF ALL PERSONS RELEASED FROM PRISON FOR THE LAST FIVE YEARS WHO HAVE BEEN CONVICTED OF A SEX OFFENSE. ALSO ATLANTA HAS OBTAINED LISTS OF POSSIBLE SUSPECTS FROM THE FULTON COUNTY POLICE DEPARTMENT, HAPEVILLE POLICE DEPARTMENT, COLLEGE PARK POLICE DEPARTMENT, EAST POINT POLICE DEPARTMENT AND ATLANTA POLICE DEPARTMENT.

THIS NEW APPROACH TO THIS CASE WILL ENTAIL THE COLLECTION OF A VERY LARGE AMOUNT OF DATA ON A LARGE GROUP OF PEOPLE.

2/13/81

CID has reviewed SAC Atlanta's request for the implementation of the Investigative Support Information System (ISIS), as well as the alternative services available through the Technical Services Division (TSD).

Since it is probable that the Bureau will be involved in this investigation until the subject is identified and apprehended, and because of the impact on the public that these slayings have created, it is recommended that TSD's alternate number one, the ISIS/Reactive Package, be installed in the Atlanta Division at the earliest time possible.

**Result of examination:**

Present on specimens Q18 through Q20 are smears and dried deposits of light yellow enamel paint. These paint deposits exhibit characteristics indicative of having been applied while the paint was in a wet condition. A particular source or origin of these paint deposits could not, however, be determined.

Specimen Q21 possesses no paint which could be associated with any of the paint present on specimens Q18 through Q20.

MAJOR CASE #30  
KIDNAPPING  
OO: ATLANTA

Enclosed for receiving offices is a typewritten rough draft of information taken from an astrologist chart regarding the above referenced case. It should be noted that along with being a student of astrology she also claims to be psychic and the last paragraph and diagram are a result of her visions. The rest of the information is derived from the astrological chart.

On 2/17/81, [REDACTED] contacted the Chicago Office of the FBI and advised she along with [REDACTED] wishes to remain anonymous and any contacts with her should be made through SA [REDACTED] worked on an astrological chart regarding the children being murdered in Atlanta, Georgia. [REDACTED] stated that she felt [REDACTED] information regarding this matter was valuable and in light of her past experiences with her felt that it was also accurate.

On 2/25/81, [REDACTED] (protect identity) was contacted at her residence at which time she provided the following information in addition to the enclosure:

b7C  
b7D

The individual involved in the murders has very bad eyesight and wears glasses. She felt he may drive a vehicle, possibly a van, that is bright in color and the vehicle may be damaged. She feels that he is possibly white and 30 years of age or less. The subject also has a scar on his chin and is "city oriented". He has reddish brown hair and is of medium height with a muscular build. He was born during a major eclipse which would have occurred on 3/18/50, 9/12/50, 3/17/51, 9/1/51, 2/25/52, or 8/20/52. She feels that he was born on or near (within two days) 3/18/50 or 9/12/50.

He was a victim of child abuse and may have possibly been taken away from his parents during his youth. He is possibly a high school dropout and is employed in some type of manual labor, i.e. truck driver, transporting food or other food products. She feels that the first killing took place around 6/8/79, and resulted from divorce action or separation from his estranged wife. He has two children by her.

She feels the subject is responsible for either 13 or 14 of the children that were missing. According to the charts the next incident will occur on 3/9/81, and a woman will witness the incident or his estranged wife may realize who the subject is. As a result of this information she feels that he will be captured in July of this year.

The last paragraph and diagram on the enclosure were obtained during a psychic vision. She saw the initials "G.H." The house he resides is in a "level" geographic area.

For information of receiving offices, [REDACTED] appears to be a very conscientious and stable individual.

Not being familiar with astrology it is very difficult to evaluate these charts and information provided regarding the above referenced case. However, after examining these charts, information appeared to be accurate.

[REDACTED] (protect identity) emphasized throughout the interview that she wished to remain anonymous and did not want to receive any recognition whatsoever regarding this information. She did consent to additional interviews regarding this case and others if the FBI so desired.

MISSING KIDS IN ATLANTA, GA.

I Did a Horary for 6-24-79, but I feel the killings started before this ( around the 8th.).

The killer is ruled by Aries which is in a weeping degree. This shows he is entering a new course, at the end of his rope or patiences, desperate, misfortune. He is positive, self-reliant, out spoken, independent in action. He is always ready and armed for the occasion. Sharp and cutting and tends to be argumentative.

APPEARANCE:

He is medium height, muscular, and his movements give the impression of agility. Usually looks angry and speaks sharply. A scar or wound is evident near the chin or neck. He is carrying a grudge. Hair brown with redish tint? *thick NECK.*

His early family life was marked by unhappiness and some violence which has left its mark, often traceable to an unruly person or harsh experience there. He achieved independence at an early age and struck out for himself. Many ups and downs in youth. Much interference in his education. At least one court appearance and usually a substitute parent or protector.

His actions are erratic and unpredictable but cunning as only an insane person could be. Fancies himself as the grim reaper. Also a sexual malfunction present. He feels he has nothing to lose and no hope for the future.

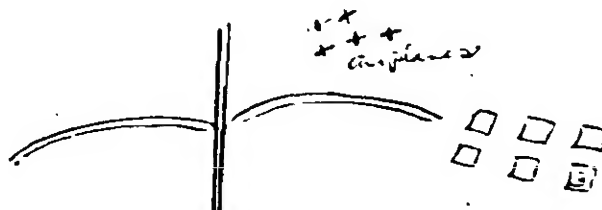

He will be found in a work area. Possible truck driver, transporting practical, useable wares. He does not like those in authority which causes him to feel insecure. Communicates well with young children, maybe pretending to be a clergyman or using some disguise to get the childrens trust. He has a dual nature, at times will use bribes, and he prefers picking up two children at a time.

The trigger that set him off could have been the break-up of his marriage. Appears to be two children in this marriage. His wife would give you a clue she feels something is wrong with him. His home is 13 to 14 miles SE of Atlanta. He will be arrested a little over two years after the first killing. JULY..AUG. SEPT. ? '81

I see a hi-way that branches out into 3 directions...he takes the right branch...there are small planes to the right....a Baptist Church on a small rise and to the right of the church a blotch of white. Also see blinds on a window with a white light going around and number 3 concerning the house he lives in. See a big thumb. I see him in a sitting position on a machine of some sort, lift truck or?

SEE A BIG G.H.

TO : Mr. Gilbert *leaf*

DATE: 2/22/81

FROM : John P. Morris

SUBJECT: ATKID

*b7c*

At the request of Unit Chief [REDACTED] Personal Crimes Unit, Criminal Investigative Division, writer contacted Atlanta FBI Office concerning a news report broadcast in the Washington, D. C. area involving the suicide of a white male in Atlanta, Georgia. Speculation was that this suicide victim was connected with the Atkid investigation. Contact was made with SA [REDACTED] Atlanta Office, on 2/22/81, and [REDACTED] advised the woman who had furnished a composite photograph of a white male in connection with Atkid, viewed the body of the suicide victim and stated that he was not identical with the subject of the composite photograph. *(J)*

*b7c b7D*

At approximately 12:20 p.m., 2/22/81, writer received a telephone call from [REDACTED] Metropolitan Police Department, [REDACTED] advised that he had just interviewed [REDACTED] Washington, D. C., telephone [REDACTED] advised that she was a "psychic" who had information concerning captioned investigation. [REDACTED] stated that the subject was the son of a policeman in Atlanta, Georgia, and this individual was either a light-skinned Negro male or a white male. [REDACTED] further advised that she could lead police to the subject's home if given the opportunity. [REDACTED] appeared lucid and coherent in regard to these statements.
